

Description

Milking Machine

Milking Machine of Corner Machinery Ltd . is performing for milking cow by machines.

Milking Machine of Corner Machinery Ltd. is characterized with high efficiency and quality of work, convenience in ease of use.

The machine's standard volume of 40 liters and high efficiency of pump provide increased quantity of cow in the herd without changing milking settings.

TECHNICAL FEATURES

	CM – 1453	CM – 1454
Electric motor	Motor power : 0,55 kW Motor speed : 1450 d/min Motor voltage : 220 V / 50 Hz	
Vacuum pump	200 lt. / min Dry / Oil	
Length / mm	1400	1400
Width / mm	650	650
Number of pulsator	1	2
Bucket Capacity / liter	40	40
Pulsator Type	mechanical	mechanical
Bucket Type	aluminum / stainless steel	aluminum / stainless steel
Average milking time capacity / 1 hour	8/10	20/22
