

Description

Feed Mixing Machine

By progressive methods of total mixing ration feeding cows are getting feed, silo, haylage, additions with each bite.

Mixing of all kinds of feed for the cows – is a new trend to increasing the efficiency of farm's meat and dairy products tendency. Scientists have proved that the consistency of cattle feed should be always the same- mixing all components of ration provides possibility to keep acidity on the required level for animal.

Mixer with riser auger is simple to use. It provides effective mixing and at the same time to mill various components of feed. It can work with all kinds of feed (dry and wet, hay, corn and various additives). Cone-shaped blending hopper and riser auger with cutting blades provide homogeneous mixing and optimal cutting rough feed- haylage, silo, green limbing mass.

Single Horizontal Mixer Feeder

TECHNICAL FEATURES

	CM-1216	CM-1217	CM-1218	CM-1220
Capacity (m ³)	3	6	8	12
Length / mm	5600	5690	6020	4920
Height / mm	2125	2485	2550	2935
Width / mm	1565	1800	1900	2350
Working Width / mm	2265	2500	2600	2350
Weight / kg	1150	1650	2300	4100
Tractor Power / Hp	30	40	50	70
Auger Diameter/ mm	1453	1680	1684	2050
Auger Speed / rpm	50	50	50	50
P.T.O. Shaft Rotations / (max)(min-l)			540	
Weighing System			Optional	
Back Loader			Optional	
Self Hydraulic System			Optional	
Double Discharge System			Optional
